PROFESSIONAL SUMMARY

Frontend Engineer with 4 years of experience building scalable, high-performance SPAs using React.js and TypeScript. Strong expertise in reusable component architecture, REST API integration, state management, and UI performance optimization. Experienced in enterprise EV charging and multi-vendor platforms.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend: React.js, Angular, Redux, Tailwind, Material UI, Shadcn UI
Tools: Vite, Webpack, Babel, Jest, Git, Bun, Pnpm
Concepts: SPA, REST APIs, Performance Optimization

PROFESSIONAL EXPERIENCE

Software Engineer – Samin TekMindz India Pvt. Ltd.

Jan 2021 – Present

- Developed enterprise SPAs using React.js, TypeScript, and Tailwind CSS.
- Built reusable component libraries improving development efficiency.
- Integrated REST APIs for transactions, diagnostics, and reporting modules.
- Managed state using React hooks and Redux architecture.
- Optimized Vite/Webpack build pipelines for improved performance.
- Collaborated cross-functionally to deliver scalable production-ready features.

KEY PROJECTS

AssetWork – EV Charging Management System (Live) | June 2022 – Feb 2023

- Developed Angular-based multi-vendor EV charging platform with reporting and diagnostics modules.
- Built real-time dashboards for monitoring chargers, transactions, and operational metrics.
- Implemented role-based access control for operational users.

Sparke – EV Charging Management System (Live) | Apr 2023 – Aug 2024

- Developed dashboards using React, Redux, and Material UI.
- Built role-based modules for operational users.
- Implemented real-time monitoring workflows for charging systems.

RFID – Card Management (Live) | Dec 2024 – Present

- Developed secure web application for identity registration, verification, and profile management.
- Implemented role-based access flows for Mumineen, Jamaat/Jamiaat Admins, and Super Admins.
- Built reusable and modular UI components using React.
- Integrated Java-based REST APIs for authentication and data flow.
- Implemented Razorpay payment gateway for service-based transactions.
- Designed responsive UI using Tailwind CSS, HTML, and CSS.
- Ensured consistent behavior across browsers and devices.

Elaam Niyat Management System (Support Project)

- Contributed to frontend feature development and backend API integrations.
- Designed and implemented a Khidmat role with view-only access using role-based access control.

EDUCATION

Bachelor of Computer Application (BCA)
Maulana Mazharul Haque Arabic & Persian University, Patna (2011–2014)
